STORY

Shinobi ---- Long ago during the age of civil wars, there existed the shadows. They hid among people, snoopied, agitated, deceived, destroyed...and killed. But then they became forgotten over time except in tales. However the Shinobi still exists.

The modern employers of Shinobi are politicians and management of large corporations. Some of them regard Shinobi as a tool to satisfy their greed.

In order to oppose these evil Ninjas, the government launches a project to train Zen-nin (good Shinobi) who belong to the government, and Kokuritsu Hanzo Gakuin school is set up for their training. The story follows the love and courage of five female students who devote themselves to become Zen-nin.
