STORY

Story follows the easygoing school life of a trio of high school girls, Yuzuko, Yui and Yukari. The three girls are together all the time. Their school life is slow and relaxed, and they pass time after school at the "data processing club" where there are two PCs and one white board and they enjoy chatting and online surfing.

The dialogue between these characterful and sweet girls, as well as the unique atmosphere, is the highlight of this anime. Not much happens in the trio's daily life, but somehow you cannot take your eyes off the comfortable everyday life they weave. New-generation high school girls' communication starts.
