## STORY

Rapid sea level rise occurs, which appears to be caused by global warming.

As if in response to the rise, "Fleet of Fog" appears. Their relentless attacks drive the humans out of the sea in the future, leaving the continents and islands isolated in terms of transport and information.

Shozou Chihaya is a pupil at the Kaiyo Sogo Gakuen. He sees a captured Fog submarine, I-401, at a military research establishment. Then a mysterious girl, Iona, appears. "I want... power." "Gunzo, come aboard." Out of desire for power, Gunzo accepts the offer from Iona, who claims to be the "Mental Model (personification)" of I-401, and Gunzo becomes the captain of the submarine.
